

Sparkenthusiasm Newsletter Back-To-School Edition

The month of August is filled with anticipation as teachers prepare and plan for the students they will teach during the upcoming school year. Thus, we spent a lot of time over the summer creating numerous types of assessments that will help teachers figure out where their students are at the beginning, middle, and end of the year with regard to their grammar, vocabulary knowledge, reading comprehension, writing skills, and speaking proficiency. This

EDITABLE 108 page Spanish Assessment, Speaking, Reading, & Writing Activities, and Rubrics Packet includes surveys, rubrics, assessments, and more for levels 1 through 4AP!

Here is a SUPER way to get all of your students excited about coming back to school in the fall. Our new football game has football-related clues about all of the NFL teams, the cities in which they play, and their mascots. These clues are divided into six separate days (with a master list included for the teacher) along with two tie breaking questions. See which class or team can figure out the clues the fastest & have the students read and discuss the included cultural reading about the role soccer plays in Spanish-speaking countries, too.
